GUIDELINES FOR DOCUMENTS SUBMITTED WITH APPLICATION

Following are some guidelines for the documents that need to be submitted with your application. These documents will be scanned into our imaging center and will ensure that your documents are readable and able to be retrieved at a later time if needed.

- All documents must be black ink on plain paper, preferably white.
- A 100% plain contrasting background must be used. It must be white or a light color background.
- Drawings and images must be sharp and bright.
- All drawings must be drawn to scale.
- There should be no filled in or shaded areas although lines or open cross hatching can be used to delineate sections if necessary.
- If you are submitting a revised plan and want to show the area being revised, provide a bubble around the area. Do not share it in.
- Photographs do not scan well nor do blueprints (white drawing on dark blue background) or brochures which have shading on them.
- The total fee for a Home Occupation is \$203.50. The total fee includes an inspection fee of \$185.00 and a 10% Automation Enhancement fee of \$18.50.

HOME OCCUPATION/HEALTH PRACTITIONER REGISTRATION APPLICATION:

Applicant must be operator residing in the dwelling in which the business operation will occur.

USE AND OCCUPANCY APPLICATIONS

Applications available at the Department of Permitting Services. Phone (240) 777-6240.

SITE PLAN

One site plan or survey of property - 1 inch = 30 feet scale. The site/parking plan must show dimension of spaces (8.5 feet X 15 feet minimum) location of spaces - width of access aisles or driveways (10 feet minimum) and clearly designate spaces as existing or proposed.

FLOOR PLAN:

One floor plan - all floors to scale 1/8 inch = 1 foot scale. The floor plan must show area devoted to requested use (not to exceed 33% of the total floor area of the dwelling unit). The floor plan must clearly designate all rooms.

PHOTOGRAPH OF PARKING:

One color photograph of areas devoted to parking

LANDSCAPE PLAN:

One landscape plan for parking and driveway areas. The landscape plan should include the common name of the plant evergreens only. Height: 3 feet minimum; spacing 4 feet on center maximum. A solid wall or opaque fence may be used in lieu of plants.

Guidance for Submitting Evidence that Drainage Will Not Damage Nearby Properties

Certificate of Registration

Paragraph 59-A-6(c)(9)(C) of the Montgomery County Code states “Before a Certificate of Registration may be issued, the operator of the home occupation must submit evidence acceptable to the Department (of Permitting Services) that the drainage of the home occupation residential parking area will not damage any nearby property or public Street”.

What does this mean? It means that you as the operator of a home occupation are responsible for insuring that runoff from parking areas on your lot do not create a nuisance or damage adjacent properties or roadways.

1. **Guidance when no additional pavement or parking is proposed.** If you are not planning on adding additional parking you need to submit a sketch of your property which shows where water flows from your driveway. Indicate the direction of flow with arrows. The sketch may be hand drawn, or, you can use a copy of your record plat.
2. **Guidance when you are planning on adding additional pavement or parking.** If you are planning on adding additional parking you need to insure that additional runoff does not damage nearby property (public or private). Therefore, on a sketch of your property please indicate where water will flow from your existing driveway and from the additional parking area. You may need to divert runoff through the use of grass swales or asphalt curbs to insure safe conveyance onto the public street or other suitable area. You will need to obtain additional permits from the Department of Permitting Services for any grading within the public right of way.

Please submit this information when you are making application for your Certificate of Registration. A representative of the Department of Permitting Services will review your drawing and, if necessary, make a visit to your property. The Department may require additional drainage measures to insure that neighboring properties are adequately protected prior to issuance of a Certificate of Registration.

If you have questions or comments please call 240-777-6240.
